60 Newsmen Will Visit Region For "Show Me Tour"

Sixty newsmen have been invited to participate in a "Show Me Trip" of this area during the weekend in a move by local business people and civic organizations to offset unfavorable publicity which has surrounded Squaw Valley State Park and other facilities in the region.

The group will leave San Francisco Friday evening, with pickups at Oakland and Sacramento, arriving at Squaw Valley before midnight. Saturday morning the news gatherers will make a tour of Squaw Valley and vicinity and learn of the long-range program for the area.

Lunch will be served at noon and in the afternoon recreation will be in order, including golf, swimming, tennis and horseback riding. Saturday evening the buses will take the delegation to Crystal Bay for dinner, gaming and fun, returning to the valley that night.

Sunday morning at 11 o'clock buses will arrive at Donner Lake where the guests will be treated to speed boat rides and later go to scan the local airport under construction and visit Jackie Jensen's Ponderosa Golf Club.

At the latter place, a barbecue will be served and at 4:30 p. m. the group will return to San Francisco.

Twelve of the reporters who will fly up will be met at the Truckee airport and escorted to Smart's for a cocktail party prior to going to Squaw Valley.

The Truckee Donner Chamber of Commerce yesterday voted to share in the expense and named Ivan Tofft, Carson White, Alex Stewart and Bill Marsh to handle the affair locally.

The group will also visit the site of Donnerland, U. S. A and the Donner Memorial State Park to see the progress on the museum.

No Open Burning Permitted In Area

With daily fire dangers now in the medium and high range in the Truckee District of the Tahoe National Forest, Ranger George Steed has issued rules governing the use of fire in the district.

Chances for fire to get out of control will become greater as the season advances, Steed declared. For that reason he urges that incinerators be used only with permits and that they are out by 10 a. m.

There will be no further open fires permitted until there is an appreciable amount of moisture, possibly next fall.

All forest service lookouts are now on their posts and all patrolmen are on duty together with the Truckee suppression crew. The 25-man "hot shot" crew is stationed at Hobart Mills and a helicopter is expected to arrive within the week.

"With fast action by patrolmen, the Trucke and Hobart Mills crews and helicopter service and with the welcomed assistance from the first district, highway patrol, sheriff's office and other citizens of our communities, we will expect to prevent most of the possible fires and keep the rest of them small," Steed declared.

Hospital Election For Bonds Slated For Next Month

Voters of the Tahoe Forest Hospital District on Tuesday, July 17, will be asked to approve a $950,000 bond issue to provide for much needed facilities for the hospital.

Primarily the funds will be spent to bring the hospital up to standards set by the state bureau of hospitals and the fire marshal's office, Administrator J. J. McGlade declared. Decision to hold the bond election was made at Friday's meeting of the governing board.

The board has been studying the needs for several months and has cut the costs to a minimum and still provide essentials to keep pace with the requirements of the institution in the fast developing district, McGlade declared.

The bonds will provide for acquiring and constructing additions and improvements including a new wing embracing a pediatric section, a maternity department, nurseries, surgeries and an adequate laboratory.

It is also proposed to increase the capacity by 24 beds, expand the presently cramped emergency treatment section, provide intensive care units and outpatient facilities.

The present facilities, including the inadequate kitchen and other departments will be remodeled and the hospital brought up to required standards and at the same time make provision for certain future demands. The bond will also provide furniture and equipment for the new wing as well as site improvement.

The expense of the hospital currently is offset by income from patients, with only a small tax required for upkeep and maintenance, it was pointed out in announcing the need for the bond issue.

VICTOR SARTOR IS HONORED BY SCHOOL

Victor Sartor, son of Mr. and Mrs. S. D. Sartor of Tahoma Resort at Lake Tahoe, now attending Pomona High School, was among 135 Los Angeles County seniors honored May 15 as Outstanding Student Award Winners in the program sponsored by the county's savings and loan associations and the California Savings and Loan League.

The honor studnets were guests at a reception held at the Biltmore Hotel in Los Angeles and each was awarded an engraved medallion and a check for $100.

Young Sartor's high school major is science and mathematics and he plans to attend Stanford University where he will major in science. He is sports editor of the school paper, a member of the debate team and director of the honor society.

MORE FAIR MONEY ASKED BY COUNTY

Directors of the 17th District Agricultural Association (Nevada County Fair) Tuesday night approved a five year building program calling for expenditures of approximately $300,000 for new buildings and improvements to the fair grounds.

The number one project requested is a new $75,000 agriculture and horticulture building.

CIVIC GROUPS PLAN SIERRA CHECK DAMS

Construction of several more low cost check dams, or water holding basins, in the high Sierra Nevada mountains is the goal of a sub-committee of the natural resources committee of the Sacramento City-County Chamber of Commerce, which will investigate possible sites July 21 and 22.

Emil J. N. Ott, Jr., Sacramento public relations executive, and chairman of the sub-committee on fish and game, said that plans were formulated for a check dam survey on these dates in the Grouse Ridge area, about eight miles north of Emigrant Gap; and in the Sand Ridge Lake area, about eight miles north of Soda Springs.

SURVEY SHOWS LOCAL SHELTER BUILDINGS

Charles A. Weeks, assistant civil defense director of Nevada County, announces a survey recently completed by the California Disaster Council and the corps of engineers, shows 17 existing facilities in the county suitable for use as fallout shelters.

The buildings meet the minimum established to provide protection from radioactive fallout by having a shielding capacity for 50 persons.

Of the 17 buildings, five are in Truckee and include Masonic Hall, Capitol, IOOF Building, Truckee Mercantile and Tahoe Forest Hospital. At Soda Springs, Soda Springs Lodge was selected, and the SP tunnel near Soda Springs was also designated as a special facility.

SOROPTIMISTS WILL HONOR STUDENTS

Two high school students will be named as winners of Youth Citizenship Awards of $2,500 each by the Soroptimist Foundation in July, during the 17th biennial Soroptmist convention opening in San Francisco.

This is the first time the awards have been made, according to President Maggie Stollery of the Lake Tahoe Soroptimist Club.

Entrants in the competition, nominated by clubs in eight nations of the western hemisphere affiliated with the Soroptmisit Federation of the Americas, have been under intensive screening for months by a committee headed by Barbara Calef of Seattle, chairman of the Soroptimist Foundation Trustees.

Several international fellowships also will be announced by the Soroptmists, the largest classified women's service club for business, executive and professional women.

COUNTY SCHOOL TAX SHOWS BIG INCREASE

Property taxes for school purposes levied in Nevada County reached an all-time high of $1,389,104 for 1961-62, California Taxpayers' Association disclosed today. This school tax bill shows an increase of $555,670 or 67 per cent during the last five years since 1956-57.

In addition to property tax levies, the school districts in the county received to date $869,550 as the state school fund apportionments for 1961-62. This will be supplemented by other state apportionments.

School taxes on property through out the state also reached an all-time high in 191-62, with the total an astronomical $1,227,202,749 or 83 per cent above the $670,128,570 school tax levy for 1956-57. The state-wide school levy totals first broke through into the billion dollar level last year when the tax take reached $1,092,407,373, and this year's total is $135 million more.

Ancient Paper Has Interesting Facts

Mrs. Paul Roscoe of Sierraville has unearthed an ancient copy of the old Truckee Republican, recounting eventful happenings of September 26, 1894.

Lead story of the edition was that of a terrific explosion of a boiler on the Central Pacific railroad near Cisco which took the life of the 17-year-old fireman, Charley Lipscombe. Lipscombe was the sole support of his widowed mother and young brothers and sisters.

The paper also contained an account of the famous butterfly collection, now in the halls of the court house at Nevada City, which then was on display at the Rocking Stone Tower, where admission was 25 cents.

Interesting ads listed a 22-room lodging house for sale at $1,200. C. F. McGlashan was making a bid to be elected district attorney. Willard P. Calkins, was the paper's publisher and J. Adolph, still a Sierra Sun subscriber, was one of the principal advertisers. The Hotel Truckee and the Sherritt House were popular hotels of the time and the principal lodges listed were the Masons, Odd Fellows, Knights of Pythias and Royal Arch Masons.

The editor boasted of the finest recreation area in the world with Lake Tahoe, Donner Lake and Meadow Lake.

The issue was brought to the Sun office by Heslin Cardinal, former local resident, now of Sierraville, who was here as a pall bearer for Mrs. Theresa Cozzalio last week.

DIVOT-DIGGERS

By BETTY KIELHOFER

Our country club meeting with Alex Stewart and Jack Jensen was a very pleasant affair and most informative at the same time. We learned of many of their plans for the course, some of which I'll pass on to you. At the present time, they are in the process of widening many of the fairways and eliminating some of the unnecessary roads winding through the course. These are being seeded and they asked the golfers to bear with them during the daylight hours that they will be watering the new seed. This will probably be going on at least a couple of hours daily for the next two months.

They have been fertilizing the greens and fairways, trimming and cutting down trees, leveling the parking lot, planting tiny trees where they were sparse, ont to mention laying carpet and adding some very attractive furniture in the clubhouse. The entire crew up there, now totaling seven, has been working like bees and its amazing how things are shaping up.

They asked the cooperation of the country club members in assisting them in removing small rocks and sagebrush from the roughs and the club voted to have a work night with them one week from next Friday at 5 p. m. Everyone who owns a pickup will bring it along and even the women volunteered to rake and do what they can. Seems like the old days when this was a regular thing.

Jack and Alex said if we would bring the drinks, they would furnish the food and we'll make a good time of it. If you want to come along, even for the exercise, call Bob Moore and he'll tell you what to bring.

Orf DeLuca gave a nice talk about etiquette on the course and we had quite a discussion about rules and regulations while playing. We only had one youngster there and we were in hopes they would all come out for this one but maybe we'll think of something soon to lure them up there.

All they have to do is play a couple of times to see how much fun it is.

In the last couple of issues, I've been pushing for a new ball diamond on Gerry Lewis's property, the old school football field, but it seems most people are satisfied the way things are. It takes a group to do something like this and if you can't get them together, you're spinning your wheels and guess thats just what I've been doing . . . so-o, you'll hear no more about a ball field from this one. Thanks Gerry, for your kind offer, anywho — Our Mountaineers won their first game against Fallon last Sunday . . . they will be playing at the local diamond Sunday next.

Only one week as a Donner Doer, and apologies are in order It was all in neighborly fun (I HOPE) but I don't think I will be able to live down the fact that Bollocks name was missepelled in last weeks column. So, Lena and Bud, here it is, I am sorry and hope it never happens again.

The west end of the lake seems to be bubbling with events this week. The Property Owners Association will be meeting Saturday the 16th for a clean-up meeting. Everyone is asked to attend from 10 to 12 to pitch in and help clean the Property Owners Beach and make it more attractive for the coming season. Noticed Mr. and Mrs. Arvin were up from Sacramento cleaning up around their home, as if it needed it; theirs is the yard with all the beautiful flowers each year. Also see Ann Nesbitt is back at the lodge for the summer. It just wouldn't seem right without Ann around. Harold and Olga Welch have taken up residence at the Baum Apartments at Donner Lake.

* * *

Was talking to Chuck and Virginia O'Bear the other night and from the looks of things their Power Cat is going to be quite an attraction on Donner Lake this month. Chuck is providing free rides to a group of underprivileged youngsters who will be staying at Alpine Lodge the end of June. This weekend he is also furnishing rides to the 40 newspaper correspondents who are meeting at Squaw Valley to get a true picture of this area. Good going, Chuck, I am sure once they get to see our own Donner Lake our area will be better publicized.

* * *

The Donner Lake Volunteer Fire Department Auxiliary will meet at Soda Springs Lodge June 21. Fran will serve hors d'oeuvres and dips starting at seven, at which time everyone is asked to be present. A choice of the menu will be in order and a delicious variety is being planned. Mildred Johnson and Martha Pankoke (present) are cohostesses at this meeting and a "June is busting out all over" will be the theme of the decorations.

So school is out for another year, but the activities never seem to stop with our youngsters. The swimming program begins the 18th and continues for two weeks. The program is being conducted at Squaw Valley this year and I am told the children must all meet at the high school and take the bus from there. There are 165 children signed up from this area.

* * *

Mrs. Estra Trotter, the dance instructor from the Donner Lake School of Dance will be leaving today for a two weeks vacation in New York visiting relatives she hasn't seen in over 20 years.

* * *

Dick and Bobbie Ciandro treat their small fry to a trip to the Sacramento zoo Saturday. Hal Gilson is home again after spending a week in the Moffitt Hospital in San Francisco. The Ray Wisers had their uncle Henry Wiser from Modesto as a visitor last week. Muriel Wiser really had a busy weekend as she and five other parents took the class of Mr. Handy on a field trip to San Francisco last Friday. The trip was a reward to the class for the most attendance of parents at the PTA meetings this year. Then over the weekend Muriel tells me they visited her parents in Gridley. Guess I don't get around much any more.

* * *

So until next week this is it. Any comments, good or bad accepted. I know it must be hard getting used to a new line of chatter after having Virginia at this so long, but will do my best to keep all sarcasm and sassiness out of this column, eh Mr. Barrett?

Diana Lynn Pankoke will be representing our own Donner Lake School of Dance in Reno tonight when she dances for a benefit show at Mahiesen Hall for the underprivileged children of Reno. The proceeds are used to give these children a chance to attend the annual Rodeo in June. Diana has been doing this type of work for five years, and we are very proud to think she will be representing the Donner Lake area this time.

Truckee-Tahoe Fuel Co.
and YOU, too, will really be COOKING With GAS!
Our little blushing bride *blushed* because her stove was the *saddest sight* in seven states. Small wonder. She used to cook on a so-called "flameless" (but not *blameless*) range. Boil-overs, caused by *Hangover Heat*, were a constant problem. Poor dear wore her hands and temper raw cleaning up unsightly messes caused by coils that were still *"hot"* when they were *"off."*
Then she switched to wonderful GAS! Boil-overs *banished forever!* She had *1001 different heat settings* at her command. GAS is *on* and *off* — instantly.
We've cooked up a special *bonus buy* on a direct factory purchase. You'll save a *fat $20 bill* if you buy this new GAS range *today.*
You're money ahead when you buy your GAS range from us. We're specialists in GAS appliances, and we service what we sell.

The California State Employes Association sat themselves down at a few of our groaning boards last Thursday evening and had their annual election of officers.

We see Ken and Esther Heinbach at Rainbow Tavern and remembering that they were supposed to be in Mexico at the time of the Mexican earthquake, we hurried to get a report — but some premonition made them leave Mexico a day ahead of schedule—and that was the day of the earthquake that they missed by one day. (Oh well, some people just live right). Anyway they had a wonderful trip.

NEW 'JEEP' TORNADO-OHC ENGINE
You'll be amazed at its performance!

Presenting the Tornado-OHC, America's first overhead camshaft engine designed specially for commercial vehicles.
WHAT IS AN OHC ENGINE? In a conventional engine, the valves are on top—the camshaft, which operates them, down below. The Tornado-OHC has overhead valves and an overhead camshaft—which is what OHC stands for. The simplicity of this system—it has 36 fewer moving parts—makes it much more efficient. It produces 33% more power with up to 25% better gas economy—needs less maintenance and lasts much longer.
COME IN AND TEST DRIVE THE TORNADO-OHC ENGINE—now available in 'Jeep' Pick-ups, 4-wheel drive Utility Wagons, 2-wheel drive Station Wagons and Panel Deliveries.

We'll try to get this following item all straight—and if we err a bit — we know that we will be straightened out and thereafter we shall correct it for you. However, since we are late in our reporting, we believe that this item should be included in case any of you are contemplating a fishing trip at Lake Almanor. For if you do go look up Pat and Bridget's Fishing Camp which is around the lake some place. "Bridget," evidently, is our own Marion Allyn Jinx. We understood quite sometime ago that the Jinx had leased a spot on this beautiful lake. Thereafter Pat Jinx had quite a heart attack and we wondered if the project would go through—and it has. So little Marion carries on anyway and we are hoping that Pat's health improves and improves so that the big burden of this project can be shared. So—again, if you are going to Lake Almanor — look up this courageous Marion and let us know if you have seen her, will you?

* * *

Our favorite spot is Kingvale—because it was whilst vacationing in our family cabin at Kingvale that I "advented" to this here mountain. Around 90 homes in this little Eden which contains 90 families — which means a great number of adults, kids and dogs and stuff. Kingvaleites have been champing at the bit—because the Kingvale Water Works couldn't be put into operation until enough snow melted, under its dense trees, to find the water valves. This past weekend saw the water works in operation — however and the summer scramble is on.

* * *

Sierra Lakes, however—is still kind of impossible to get into. Havent heard about their opening date, as yet. Nor the Cedars either.

* * *

After expending all of our energies on our "Editorially Speaking" deal—we kind of think that we will lie in the sun for awhile.
